Execution Framework

Every engagement is mapped to measurable commercial outcomes, with transparent weekly reporting, cleaner internal handoffs, and channel-level accountability.

Core Service Lines

- Search Engine Optimization (on-page, off-page, technical).
- Performance Marketing across Google Ads and Meta Ads.
- Social Media Management with content and paid support.
- Website and Conversion Systems for lead and sales journeys.
- Workflow automation, reporting systems, and approval pipelines.
- Branding, Graphic Design, and PR or Influencer programs.

How Engagement Starts

- Step 1: Discovery and baseline audit of existing channel performance.
- Step 2: Growth architecture with KPI-linked channel, workflow, and reporting priorities.
- Step 3: Execution sprint with weekly governance, reporting, and automation handoffs.

Reporting and Governance

- Clients receive weekly decision-oriented reports, transparent KPIs, and next-action priorities.
- Automation layers are designed to reduce manual follow-up, approval lag, and reporting friction.
- Each campaign is mapped to a commercial objective with accountable ownership.

Recommended Next Step

- Book a strategy consultation at https://www.fernesta.com/contact-us to receive a tailored growth roadmap.
